

## PRESENTATION OF THE 4 STEPS TO A SUCCESSFUL PAINTING

1. Your paint by numbers kit will be solidly packaged to preserve each element. Unpack them carefully.
2. On a flat surface like a table or a desk, prepare the necessary materials for painting (your canvas, paint brushes, paint). We recommend also having a small water receptacle nearby to make the paint more fluid and wash your paintbrushes
3. Our kits are smartly identified. On each paint receptacle, you will find a number that corresponds to a number on your canvas. Match the numbers together and fill in each section accordingly.
4. Wonderful! Your painting is now finished. Let it dry thoroughly and use it as you will to decorate your home.

**Now try for yourself!**
